

2022 IMPACT REPORT

When asked, what made your work meaningful after a shift, our youth crew responded:

- we are sowing the seeds that will feed our community
- we are preparing the produce for a profitable market
- we are preparing lessons for 4th graders and building their connection to the soil
- we are building the classroom for this summer's youth crew
- we are bonding and building a strong team

In 2022, we accomplished a lot! Below you'll read about our impact on our youth crew, their friends and families, and our greater community.

7,498

TOTAL YOUTH HOURS
engaged in meaningful work

That's a lot of learning,
